

Technology Solutions For Organizations

Partners In Profit We want to be your technology partner !

Partners In Profit helps you communicate with, learn more about, and increase retention of your *current* members.

We all have customers, whether we call them clients, or members, or guests, or even voters.

Are you are tired of spending more and more time and money on an exhausting and endless chase for new members?

It costs **six times more to recruit a new member than to retain a current member.**

Permission Based E-mail Marketing - You've already paid to generate their interest and to win your members over. Keep your organization in front of your members and prospective members with informative newsletters, special promotions, event invitations and more. Contact your members using E-mail at a fraction of the cost of Print, Radio & TV. At pennies per contact vs. up to a dollar or more for direct mail, E-mail is the least expensive form of advertising. **Partners In Profit** can help you get started, or let us do it all for you.

Web Sites, Promotion & Internet Marketing – Your members and potential members are from all over. Make it free, easy and painless for them to find out about your organization. It seems everyone is surfing the web these days. Let them find your organization on the web and then show them what is special about your organization. Give your organization that extra edge. Think you can't afford to build and promote a website? How about a **free** domain name, **no** monthly fees & **5 free** email accounts @ yourdomainname for a hosted web site. We will help you design and promote your website.

800 Phone Numbers – Ever get involved in fundraising? Do all your members or associates live so close to you that it is a free phone call for them to find out about your organization and it's mission? If not, you can't afford not to think about toll free numbers. Basic fees start at just \$ 2 per month. We will help get you set up.

Newsletter Publishing Services – Need to create newsletters, coupons, flyers and other print messages? Newsletters are the perfect way to keep in touch with your guests. We will help you design your important print messages. And we are very affordable.

Member Data Bases and Mailing Lists – We will help you design member databases and even set up systems that don't require you to even touch a computer. We can help you send out information and mailings to your members . Or set up e-mail newsletters that you can send to your members with computer access. E-mail, properly targeted using the right data contained in a database we create for *your* special needs, enables you to send **the right information to the right member**. You don't always need to pay those high postage costs.

Customer Relationship Marketing – Gather and use information about your members to make them happier and increase member retention. We help you find ways to grow your organization and increase your membership by better serving your current members. Maybe get involved in permission based e-mail marketing. Please download the Organizations CRM sheet for more details, then contact us for a solution designed specifically for *your* organization's needs

Remote Office & Home Worker Connection Solutions - We will help you connect your offices and your workers, wherever they are. Virtual PBX and VOIP solutions.

Custom shirts, caps, clothing or other promotional items. Need professionally designed logos or graphics?

One of our Partners can help. We will be glad to work with them for you.
